ABOUT COMPANY

Altimi Research & Diagnostic Laboratory is a highly skilled and dedicated diagnostic facility with extensive experience in pharmaceutical research and clinical laboratory services. We are committed to delivering accurate, reliable, and timely diagnostic results that support effective patient care and clinical decision making. Our laboratory operates under strict quality control protocols, ensuring precision and consistency at every stage of testing. Our team is proficient in sample analysis, equipment calibration, and the implementation of standardized laboratory procedures in compliance with international best practices. We utilize advanced analytical instruments, including Randox RX Imola and Sysmex analyzers, to perform a wide range of diagnostic investigations with high efficiency and accuracy. Through continuous monitoring and validation processes, we maintain the highest standards of laboratory performance. With a proven track record of enhancing sample throughput and optimizing workflow efficiency, Altimi Research & Diagnostic Laboratory is well equipped to meet the demands of fast paced clinical environments. Our strong commitment to excellence, innovation, and patient focused service enables us to consistently deliver dependable results while upholding the core values of quality, integrity, and professionalism in laboratory operations.

MESSAGE FROM CHAIRMAN

Dr. Fazlullah Pechuho
MBBS, MBA (AUD)

At Altimi Research & Diagnostic Laboratory, our passion for innovation and continuous improvement drives everything we do. We are committed to staying at the forefront of medical technology by adopting advanced diagnostic techniques and modern laboratory systems. This dedication enables us to consistently deliver high quality services that meet the evolving needs and expectations of healthcare professionals, institutions, and patients. By maintaining strict quality standards and investing in state of the art equipment, we ensure accuracy, reliability, and trust in every diagnostic result we provide.

Our goal and commitment extend beyond diagnostics we aim to make a meaningful and lasting impact on the lives of the patients we serve, especially those in need of dependable healthcare support. We strive to deliver our services with compassion, empathy, and a deep sense of responsibility, while fostering a culture of excellence, integrity, and continuous improvement. Through teamwork, professionalism, and patient-centered care, we remain dedicated to supporting better clinical outcomes and contributing positively to the healthcare community.

OUR VISION

VISION

Our vision is to be a leading diagnostic laboratory known for maintaining high standards of quality and excellence in healthcare. We aim to provide dependable diagnostic services that support accurate clinical decisions and contribute positively to patient care. By focusing on precision, consistency, and professional integrity, we seek to earn the trust of healthcare professionals and the communities we serve.

OUR MISSION

MISSION

Our mission is to deliver accurate, reliable, and timely diagnostic services that play an essential role in supporting patient care. We strive to ensure precision and consistency in every laboratory process by following established quality standards and professional practices. Through careful testing and responsible reporting, we aim to assist healthcare providers in making well informed clinical decisions.

OUR SERVICE

CLINICAL CHEMISTRY

The Clinical Chemistry Department of the Pathology Department is the core of the organization, specializing in performing a variety of laboratory assays. It uses automated analyzers and standardized biochemical methods to measure substances such as enzymes, hormones, electrolytes, proteins, and metabolites.

HEMATOLOGY

The Hematology section of the laboratory department is staffed by a team of highly qualified hematologists and laboratory scientist who use state of the art analyzers to perform a Wide range of tests, to diagnose and monitor various hematological disorders.

MICROBIOLOGY

It is a specialized clinical laboratory unit that studies microorganisms in blood and other bodyfluids to detect, identify, and monitor infectious agents. It works by receiving properly collected blood samples, which are then processed using culture techniques, staining methods, and molecular or automated assays to identify bacteria, viruses, fungi, and parasites.

HISTOPATHOLOGY

Histopathology department is concerned with the diagnosis and study of diseases by examining biological tissues at a microscope level , Our trained staff of doctors and staff specialized in histopathology department examining tissue samples obtained through a biopsy or surgical procedure

HOLTER HEART MONITERING SERVICES

Altimi research and diagnostic laboratory offers advance monitoring of cardiac abnormalities by providing an innovative all in one solution suitable for both long and short term measurements. While detecting all best known arrhythmias and supporting multiple applications, it allows for full disclosure ECG data collection as well as intelligent arrhythmia detection.

FREE HOME SAMPLING SERVICES

WHY CHOOSE ALTIMI

Accurate & Reliable Results

We are committed to providing accurate and reliable diagnostic results through carefully controlled laboratory processes. Each test is performed using standardized methods and verified through strict quality checks. Our focus on precision and consistency ensures that every report supports confident clinical decisions and patient care.

Timely Reporting

We ensure timely reporting of diagnostic results to support quick and effective clinical decisions. Our laboratory processes are designed for efficiency without compromising accuracy or quality. By maintaining organized workflows and prompt communication, we help healthcare providers and patients receive results without unnecessary delays.

Experienced & Qualified Staff

Our laboratory is supported by a team of trained and experienced professionals dedicated to maintaining high standards of diagnostic services. Each member works with professionalism and attention to detail to ensure accuracy, efficiency, and dependable results. Through teamwork and expertise, we consistently support quality laboratory operations.

State of the Art Equipment

Our laboratory is equipped with advanced diagnostic instruments designed to deliver precise and dependable results. We utilize modern technology to enhance testing accuracy and operational efficiency. This enables us to support high quality diagnostics while meeting the demands of contemporary healthcare services.

ON GOING ACCREDITATIONS PLANS

We look forward to obtaining national and international recognitions and accreditations in the future

GET IN TOUCH

We are always available to assist you with any questions or information regarding our diagnostic services. Whether you need support with test details, reports, or general inquiries, our team is here to help. Feel free to reach out to us, and we will respond with care, clarity, and professionalism.
